**MENTORING REPORT**

**ACADEMIC YEAR 2021- 2022 (SEM: II) Class: - G DIV. Batch: G2**

**Thought process used to identify Weak – Average – Bright Student:**

Proficiency test and academic performance in examinations ISE I, ISE II and MSE

40 % and above Bright students,

50% for average students, and

less than 10 % for weak students.

Participation activities

Ethics and attitude with discipline

Work to be given to bright students:

- i) Motivated to help the weak student in their study.
- ii) Provided Question Bank for bright students

Subject:- Thanking To Mentor

Ma'am, I am so grateful that you are my mentor. And I am thanking you for that. You helped me alot. People think that I am good in Maths but that's not it. Whole thing depends on the teacher, like how he/she teach us.

In H.S.C, I haven't studied good enough that's why my basics weren't clear but you have taught me that too. And for that I appreciate it.

Not only in maths but you have asked me about other subjects in which I wasn't good. You also provided me the mechanics notes because I needed that.

You have taken extra lectures for maths that I have attended regularly because I had some doubts to clear.

There aren't many teachers ~~who~~ who could do like you did for us. Thank you for being such an incredible teacher and supporter. Thank you

Sarim

Subject:- Benefit of Mathematics Extra Classes.

M'am, First of all a big thanks from myself and my classmates (on behalf of). First of all I was scared when I was not about to solve matrices examples earlier. Then in ISE-I, I tried to solve but score wasn't good later.

Then after ISE-I result, you called roll numbers and told us to attend the extra classes which will help you to score good marks in MSE. Later, we all attended all of those post college extra lectures since 3rd February. Suddenly we felt that this is very easy and really the performance was better in MSE with your lucid and friendly teaching style.

We was not expecting this kind of special teaching to encourage weak students to score good marks in mathematics.

M'am, I request you to stay till our Mathematics-III. Because, the way you teach concepts is much effective than my past teachers of SSC-HSC.

Extra lectures were helpful, effective, motivated us to take interest in mathematics and were so developing mind towards logic (formulae) [Because, weak students usually do not remember formulae] A big thank you m'am, your work is so appreciable.

Thank you!

Subject : Benefit of Mathematics Extra classes.

M'am First I say thanks from myself and my whole Division I was weak to solve matrices examples then in JSE-I I tried to solve but not scored well in examination

Then after our JSE-I result we are very confused to how do study and scored good marks in MSE then you called roll numbers and told us to score good marks in MSE and we have improved due to your guidance and your well planning. We was not expecting this kind of special teaching to encourage weak students to score good marks in mathematics.

M'am we request to stay ~~are~~ with us upto Mathematics-III Because you teach concepts is much effective than my past teachers. Thank you for your great work and keep doing that.

Thank you

Ingole
