Integrated Library Management Software (ILMS)- Vidyasagar v4.0 LMS

Modules	Description
Set Up	This is admin module is used for Circulation Set Up and General Set Up to set permissions and making entry of the default values in the master tables and then using such values in the subsequent modules
Master	This module is used for acquisition / purchasing of the all documents in the library. For each purchasing, Purchasing Record / Acquisition Record is created. This module used to add default values like Accession Series, Departments, subjects, courses, users management etc.
Members	This module is used to add/ edit member's information and set its default values
Cataloging	This module is used for cataloging of all type of documents to generate full catalog records. Besides, in this module many other utilities have been provided such as Update Details, search books, import data, Add/ Edit Titles and Stock Checking of Books.
Circulation	This module is used to computerize the Circulation Desk activities and services such as issue and return of the documents
Periodicals	This module is used for managing the periodical subscription in the Library, update incoming report and generate periodical list.
Newspaper	This module is used for managing the newspapers in the library. It comprises daily record updates and generates incoming newspaper report.
Reports	This module is useful to generate various type of reports such as daily circulation, date wise circulation, circulation statistics, top 10 titles, top 10 authors, top 10 members, book journey, delaying members.
OPAC	OPAC module is useful for library database searching in 10 easy ways: accession number, title, author, publisher, call number, department, subject, etc. Additionally, This module is available in Web OPAC and OPAC mobile apps formats for library members. They are mainly used for information retrieval.
