Performance Criteria	PO & P & SO	Excellent	Average	Poor	Ex Grading				
					5	4	3	2	1
Apply basic Ethics	8	Lecture was initiated with rules and regulations. It clarified me the path to apply the ethical principles in the innovative ideas and to start own business	lecture was less focused on rules and regulations, so I need to study extra for better understanding of the topic.	Content of the lecture was poorly structured. It created confusion for me.					
Independent learning	12	The lecture was so interlinked and ethically sound which developed immense interest and curiosity in me, so I have decided to do work on participating in various event related to innovation and entrepreneur.	Lecture was technically sound enough but was moderately interlinked and structured. So I was having trouble in developing interest	The lecture was not interlinked and technically sound resulted in lack of interest and curiosity in me.					
Contemporary issues	6	Shared industrial case studies, experiences and applications etc. About funding form different government agencies Created awareness in me about how to update yourself in the field	Very few real time examples were given. There is no list of government funding agencies presented. So I need to invest more time in understanding funding agencies in the field.	Lack of case studies, applications, industrial experiences, development/update. So, I could not understand significance of the topic.					
Entrepreneurship Development	PS O 2	Lecture was motivating to startup your own business with any innovative ideas that provide solutions to the society and leading to employability that promotes to register under MSME	Lecture was less motivating to startup a business and has less interest in registering the company in MSME.	The lecture is not linked with any entrepreneurship activities
